52g

Rydan Automation Ltd are always on the look out for the latest products that match our eye for design detail, quality and reliability.

The Victory radio transmitters meet every requirement and more. Stunning design, and made from stainless steel these remotes will last.

Housed in a metal enclosure the radio frequency is not effected providing the reliability needed in todays market.

Exclusive to Rydan Automation these remotes come in 2 button and 4 button models providing the flexibility to link with Gates, Barriers, garage Doors and more.

Dedicated radio receivers that can be linked to PC's and store upto 700 transmitters, you can be sure these will meet your needs.

*radio range is a typical in open space with no interference.
